

Course Title	Course Code	SO1	SO2	SO3	SO4	SO5	SO6	SO7
Program Core Courses								
Computer Programming for Engineering	EE 101	I		I				
Introduction to Circuits	EE 201	I			I	I	I	
Electronic Fundamentals	EE 211	P	I	I		I	I	
Logic Design	EE 221	I	I	I		I	I	
Signals and Systems	EE 231	I					I	I
Circuit Analysis	EE 202	I					I	I
Electronic Engineering	EE 312	P	I				P	
Microprocessors Design	EE 322	P	P	P	I	P	P	P
Electromagnetics Fundamental	EE 341	P		P				P
Control Systems	EE 332	P	P				P	
Communication Systems	EE 351	P	P	P		P	P	
Power Electronics	EE 305	P	P	P	I	P	P	P
Electrical Machines	EE 304	P	P					P
Power Systems	EE 403	M	P		P			P
Senior Design Project	EE 490	M	M	M	M	M	M	M
Cooperative Training	EE 492	M		M	M	M	M	M
College Requirements Courses (Used in SO assessment)								
Ethics	ETHC 305				M			
Introduction to Engineering Design	CEE205	I	I	I	I			
Program Elective Courses								
Electrical and Electronic Measurements	EE 414	M		M	P			M
Opto-Electronics	EE 415	M		M				M
VLSI Circuits Design	EE 416	M	M	M	M			M
Communications Electronics	EE 417	M		M			M	M
Data Communication Networks	EE 423	M		M				M
Digital Communications	EE 424	M		M			M	M
Wireless Communications Systems	EE 425	M		M				M
Antenna and Wave Propagation	EE 426	M	M		M			M
Mechatronics	EE 430	M		M			P	M
PLC Microcontrollers	EE 434	M		M			P	M
Robotics and Automation	EE 440	M		M	P			M
Artificial Intellegence	EE436	M		M	P		M	M
Digital Signal Processing	EE 442	M		M			M	M
Power System Planning	EE 452	M		M	P			M
Renewable Energy Engineering	EE 454	M		M				M
Special Topics in Electrical and Electronic Engineering	EE 499	M		M				M
